of prisoners now confined in jall it would be impossible to remove them to any other building in the city while a new jall was being built on the site of the old one." The committee in view of these facts recommended the adoption of a resolution authorizing the committee to take the necessary steps to obtain the title to the property situated just east of the Court House, being the northeast quarter of the square on which the Public Building stands.

On motion of Mr. Gruse action on this resolution was, postponed. Mr. Gruse stated that he had been requested by Mr. Reymann to ask for this postponement. It is understood that Mr. Reymann, as a public spirited citizen, is very much opposed to seeing all possibilities of ever—making the balance of the Public Building square a public park, destroyed by the erection of a substantial jail building that would be intended to last for years. Mr. Reymann thinks that in time the Wheeling & Elm Grove terminal might be established in the old Hempfield yard, across the street from where it is now, and that the city could then have the property the company now occupies. Then, provided the county could procure the northeast quarter of the square, a pretty park eduld be made. Mr. Reymann also thinks that a jail building at the point suggested would saily dwarf and over shadow the Public Building.

MISCELLANEOUS MATTEES.

The Committee on Roads and Bridges liceman W. H. Little and Charles Zimmerman, the three Bellairites arrested arly Sunday morning by Capt. A. W. Roome, a well-known special agent for he Government, assisted by Deputy Marshal Devine, of this city, on charges of conspiracy against the Government and fraudulently obtaining money from the Pension Bureau, as reported in yesterday's issue, were taken to St. Clairsville yesterday morning. It was the understanding that they would be granted preliminary hearing yesterday, but the Government, for satisfactory reasons, asked that it be postponed till to-morrow, which was done. The hearing will take place before United States Commissioner James Tallman who is-

The Committee on Roads and Bridges reported bills aggregating \$2.010 25, which were ordered paid. On the recommenation of this committee, it was ordered that Frank Higgs be paid \$73.90, balance due him on contract for a fill on the West Union and Roney's Pointroad, at Robinson' bridge, out of the general fund. On recommendation of this committee, the petition of A. S. Maxwell et al., for the reopening of a road, was rejected. The proposition of this County Court of Brooke county—that Ohio county have the two iron bridges over Short Creek, owned by the two counties ejointly, painted and present bill for half the cost to Brooke county, was accepted, and Commissioner McColloch and Engineer Smith instructed to receive bids for sued the warrants upon which the ar-rests were made.

After deciding to postpone the pre-liminary hearing ball was fixed at \$1,000 for each of the prisoners. Mr. Zimmer-man promptly furnished bond for this amount and was released. Mrs. Sweitz-er and Captain Little fixing unable to furnish proper security were remanded urnish proper security were remanded

to jail.

Mr. Zimmerman appears to be an unfortunate victim in this case; he was picked up on the street by Little when he and Mrs. Sweitzer were on their way to acknowledge the vouchers and inducted to sign something he knew really nothing about. What he did was done merely as a favor for his friend Little. It is said that Mrs. Sweitzerin addition to the \$400, which she says she paid Little for his services, and which he deniesever receiving one cent of, was hiled by some one unknown, who knew of the crookedness of the transaction, for \$50, and by another unknown whose insuations and threats received through the mail frightened her, for \$75.

Saturday evening Officer Little arrested a boy for jamping on and off moving trains. Sunday morning when the boy found that he had been joined behind the bars by Little he was nearly convulsed, and spent the balance of the day making life miserable for the Captain by guying the life half out of him. and Commissioner McColloch and Engineer Smith instructed to receive bids for the repainting.

The Committee on Poor House and Farm reported bills aggregating \$337.29, payable out of the Contingent and Poor fund, and bills to the amount of \$329.94, payable out of the Poor House and Farm rund, all of which were ordered paid. The report of the Superintendent of the Poor House for the month of October shows the total number of inmates to have been 60, composed of 38 white males and 22 white females. There was one birth during the month.

Another Pension Frausi,
Another pension fraud has been brought to light over the river. Some time since Jacob Jackley, of Belmont; county, a veteran of the late war, was notified to appear before the Pension Examining Board at Steubenville. He thought it strange that he should be summonded to Steubenville instead of Bellaire which is so much nearer. He went to Steubenville, however, and appeared before the Board. The first question asked him was on what grounds he demanded an increase in his pension. Mr. Jackley replied that he had never received any pension and thereby caused quite a genation among the members of the Board.

The presumption is that some one knowing that Jackley was entitled to a pension has been impersonating him and drawing a pension regularly, and had the nerve to ask for an increase. This is merely a presumption, however, for the Government officials who are supposed to know all about the matter, and who the presumption is an close. Another Pension Fraud.

"The King's Fool" has a romantic plot hinging on the identity of a young prince, who, like Achilles, of classic fame, has been secreted in the guise of a girl from the enemies of his pretensions to the throne. Two parties, the civil and the military, contend for the honor, and profit of discovering the young prince and restoring him to the throne, at the time occupied by a half-witted naurper. On the day set for the rebellion, the military party, headed by Count Riverot, seize both the prince and his playmate Felica, who wears at the time, the chain of Navarra, the only clue to the identity of the prince. Unable to decide, the military gentlemen leave the question to Countes Corisanda, Felica's mother, who idecides in favor of her daughter. Then the supposed pretender, Julius, is to be put to death, when he is saved by Felica. Finally the sex and station of Julius are discovered, and he ascends the throne, to which he gallantly calls the faithful Felica as his consort.
